

REMARKS/ARGUMENTS

The Official Action dated 1 November 2005 has been removed and analyzed. The Official Action form PTOL-326 shows a shortened period of time to respond of three (3) months and although this is an Ex parte Quayle action, it is believed that the period of response extends through and including 1 February 2006. In the event that there are any charges associated with a Request for Extension of Time, the Honorable Director of Patents and Trademarks is hereby authorized to charge Deposit Account 18-2011 for such charges.

In the Official Action, the Examiner has objected to Claim 1 with regard to the recitation “and facing correspondingly ones of gaps of the inner frame”. The Examiner has stated that it was not clear exactly what is being defined by this phrase. By this Amendment, Claim 1 has been clarified to read: “ ... the display board having holes formed on an upper edge thereof and facing correspondingly ones of a set of gaps formed in the inner frame ...”. Additionally, the Examiner has objected to the term “thus, light emitting device can emit light”. By this Amendment, this phraseology has been amended to read: ... “thus, said light-emitting board emits light, which then travels through the gaps of said inner frame ...”.

The Examiner has objected to Claim 2 as being written in two sentence form. By this Amendment Claim 2 is amended to properly read in one sentence form.

Further, the Examiner has objected to the drawings and has indicated that the drawings must show every feature of the invention specified in the claims. The signs or characters or indicia are now clearly shown in Figs. 1, 3 and 6 as element numbers 13' and 243'. The Specification has been amended to correspond with the amended drawings.

The Examiner has kindly indicated allowance of Claims 1 – 5.

It is now believed that the subject Patent Application has been placed in condition for allowance and such action is respectfully requested.

Respectfully submitted,
FOR ROSENBERG, KLEIN & LEE

Morton J. Rosenberg
